EXAMINER'S COMMENTS

Response to Amendments

1. In view of the amendments filed 1/4/2005, the objections to the claims and the rejections to the claims under 35 U.S.C. § 112 are hereby withdrawn.

Response to Arguments

2. Applicant's arguments filed 1/4/2005 have been fully considered and are persuasive.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a method of processing mail pieces by generating a printstream, transmitting the printstream to a printer and to a remote workstation, then interpolating the printstream in the workstation to generate reprint data and job tracking data and generating mail run data files from the interpolated printstream.

The most pertinent prior art, ANDERSON, JR. ET AL discloses a method of processing mail pieces in which a printstream is generating and transmitted to a workstation, but does not disclose transmitting the printstream to a workstation and interpolating the data for a reprint database and tracking database.

Art Unit: 3721

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
